Dave Forbes - Insurance Specialist

Health Insurance

No  
One Can  
Predict the Future!

*I would like to take a moment of your time to share a couple of thoughts with you. People from all over the US are coming to the National Brokers Network and the Forbes Insurance Agency for their health coverage.*

- We are independent advisors with the knowledge to work for you, not the insurance company.
- We are dedicated to providing coverage that will pay catastrophic medical bills 100%, with Zero out of pocket & protect our client's life style.
- National Brokers Network only partners with the most recognized and respected insurance carriers who have issued billions of dollars of health coverage insuring American families across the United States

## What is a Complete Health Care Plan? 10 necessary things....

1. We make sure you have an "A" rated insurance provider.
2. We make sure that your insurance agency is a leader in the health care industry and pay their claims on time.
3. We make sure that our clients have access to a vast nationwide network of providers.
4. We always give our clients at least 3 - 15 million dollars of yearly coverage.
5. Our clients choose their favorite medical providers without needing referrals.
6. We make sure that preventive care is available.
7. Due to our relationships with "A" rated insurance companies, we will make sure your plan is designed at the right price for you, guaranteed!
8. A complete plan also provides for living expenses upon diagnosis of a critical illness.
9. An effective plan provides for loss of income during a long recovery from an accident.
10. By knowing your needs, we will advise you on how to protect your family.
